

Design and manufacturing of drilling rigs

Design and manufacturing of drilling rigs:

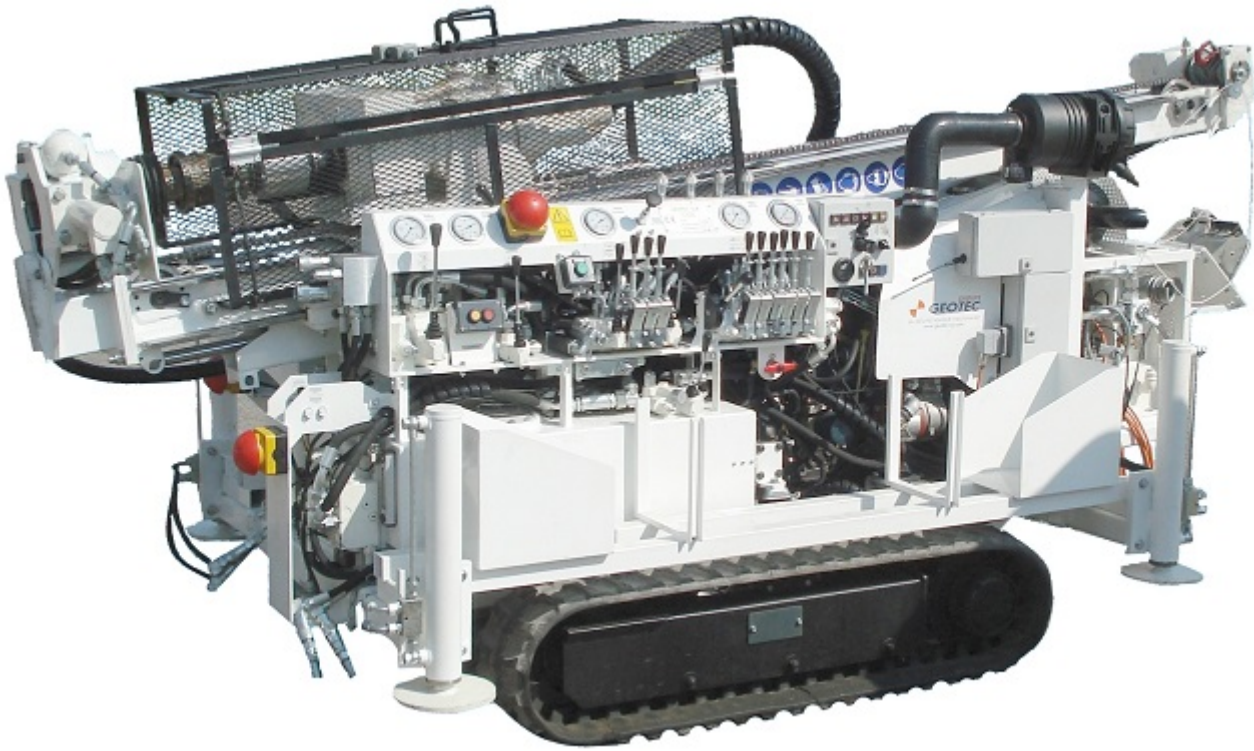

GÉOTEC Group has 30 years' experience in designing and manufacturing a comprehensive range of hydraulic drilling rigs to perform all geotechnical surveys as deep as 150m. Immediate feedback from our assignments allows for constant innovation and improvement. We are particularly focused on improving safety of both newly designed and existing rigs.

TB 50: AUGER AND DYNAMIC PENETROMETER:

TB 175: AUGER, DESTRUCTIVE AND PRESSUREMETER BORING

AS DEEP AS 60 M:

" Click on the rig picture for a detailed fact sheet. "

*TB 225: AUGER, DESTRUCTIVE, PRESSUREMETER BORING, CORE DRILLING,
AS DEEP AS 60 M:*

*TB 350: AUGER, DESTRUCTIVE, PRESSUREMETER BORING, CORE DRILLING,
AS DEEP AS 150 M:*
